SUMMARY

Product Designer and Full-Stack Developer who believes strong products need both thoughtful design and solid engineering underneath. Leads UX and design systems for a multi-product AI-education platform, and builds and ships independent full-stack projects to stay close to the code.

EDUCATION

Rai University **Ahmedabad, Gujarat**
B.Tech in Computer Science & Engineering *2024 – 2028 (Expected)*

- **Relevant Coursework:** Data Structures & Algorithms, DBMS, Operating Systems, Advanced Java, C++, Cloud Computing, Full-Stack Development, Git

EXPERIENCE

Navchetna Technologies **Jodhpur, Rajasthan**
Head of Design *2025 – Present*

- Own product design and UX research across Navchetna's AI-education ecosystem, from early research and IA through production-grade component specs handed off directly to engineering
- Designed 30+ high-fidelity screens across mobile and desktop for EdTech and other products, spanning onboarding, adaptive test flows, performance analytics, and AI mentor insights
- Built a design system spanning typography, components, and interaction patterns used as the single source of truth as the product scaled across mobile and desktop

PROJECTS

Orrery

- AI-powered tool that converts written notes into interactive graphs, letting users branch off and explore alternate ideas or decisions non-linearly
- Conceptualized, designed, and developed the product independently end-to-end using Next.js, Framer Motion, and Firebase – from concept and information architecture through UI and front-end implementation
- Live Demo: https://orrery-xi.vercel.app

Project Design Portfolio | Portfolio, Dribbble

- Designed AI-powered and SaaS products including a personalized learning platform **Osmium AI,** a one-to-one tutoring marketplace **HomeGuru,** and an AR anatomy platform **Natraj**, among others, each shipped with its own visual identity and interaction language

SKILLS

Design: Figma, Adobe Illustrator, UI/UX Design, UX Research, Prototyping, Brand & Logo Design, Digital Marketing

Languages: JavaScript, C++, C, Java, SQL

Frameworks: React.js, Next.js, Node.js, HTML/CSS

Tools & Platforms: GitHub, Docker, MySQL, AWS EC2 & S3 bucket, Firebase, Cursor, Framer

ACHIEVEMENTS

Code Xccelerate 2025 Hackathon **Sonipat, Haryana**

- Secured 2nd place at CodeXccelerate 2025 (Gateway Education), serving as the team's Product Designer, UI/UX design and user experience strategy.
